Dear Parents

Accessing learning for Nursery children

I am aware that Miss Robinson has received many queries from parents about how to access the VLE class page from Nursery Parents. I am therefore attaching the user guide, and also the following links, which will take you to simple YouTube videos that explain how to access your child's class page. You will need to log in to the VLE first. To do this, please login via the [school website homepage](#) (button top right), using your login details.

These links take you to YouTube videos which will walk you through accessing information, as a child or as a parent:

[Child's view](#)

[View class page as a parent](#)

[View homework as a parent](#)

I hope you find these videos helpful. As you know, in addition to this, you now have the opportunity to contribute to your child's EYFS profile through Evidence Me, which I wrote to you about last week.

Thank you for all your support in these highly unusual times.

Yours sincerely

Helen Carpenter
Head teacher
